

BroaderImpacts.net @NA4BI

A Research Coordination Network funded by NSF Division of Molecular and Cellular Biosciences

National Alliance for Broader Impacts

A nationwide network of individuals and organizations working together to build institutional capacity, advance BI, and demonstrate the societal benefits of research.

O B J E C T I V E S

Identify and curate promising models, practices, and evaluation methods for the BI community

Expand engagement in and support the development of high-quality BI activities by educating current and future faculty and researchers on effective BI practices

Develop human resources necessary for sustained growth and increased diversity of the BI community

Promote cross-institutional collaboration on and dissemination of BI programs, practices, models, materials, and resources

Promote broad dissemination of BI programs, practices, models, and resources and catalyze cross institutional collaborations

W H Y J O I N N A B I ?

-  Contribute your voice to the national dialogue around broader impacts and research
-  Access BI resources developed and recommended by NABI colleagues
-  Share promising practices to grow both new and established BI offices
-  Identify collaborators nationwide to strengthen broader impacts plans for your NSF grant proposals
-  Participate in national and regional meetings and workshops to network with peers and build your BI skills
