Broader Impacts Summit 2017 Summary Brief

The fifth annual National Alliance for Broader Impacts Broader Impacts Summit was held April 25-28, 2017, hosted by Oregon State University at Skamania Lodge, in Stevenson, WA.

HIGHLIGHTS

- Jory Weintraub, Janice McDonnell, and Oludurotimi Adetunji, chairs and members of the NABI Training Subcommittee, developed and delivered a half-day workshop: "Broader Impacts 101," and "Setting up a BI Office."
- Dr. Suzi Iacono spoke at the Summit and provided recently compiled data on broader impacts trends in funded proposals.
- A major panel discussion centered on the August 2017 total solar eclipse. Expert panelists Laura Peticolas, Dennis Schatz, Angela Speck gave detailed talks and demonstrations on the solar eclipse, including information on how to experience the eclipse safely, and where the best locations were to be in the path of totality. Safety glasses were donated by the University of Missouri for all participants.

AGENDA

ngendn	
PRECONFERENCE TUESDAY, APRIL 25	
12:00 noon	Registration
1:00-5:00 p.m.	 Preconference Introductions – Who are we? Who are you? Short group activity/report-out: What are Broader Impacts? Presentation: Broader Impacts 101 Extended group activity/report-out: Develop a BI plan based on research scenarios Introduction to the BI Wizard Starting up a BI Office at your Institution Q&A/Wrap-up

DAY ONE WEDNESDAY, APRIL 26	
7:30 a.m12 noon	Registration
7:30 a.m.	Continental Breakfast
8:30-9:20 a.m.	Welcome and Opening Remarks Julie Risien, Oregon State University and Susan Renoe, University of

	Missouri Cynthia Sagers, Vice President for Research, Oregon State University
9:30-10:40 a.m.	SESSION 1
	Workshop So You Think You Can Tweet? Esther De Smet, Ghent University
	Workshop Partnerships for Impact in Citizen Science Rick Bonney and Karen Purcell, Cornell University
	Combined Session Novel and Innovative BI Approaches Using Crowdfunding to Incentivize Outreach and to Build Partnerships within Academic Institutions Jai Ranganathan and Anthony Salvagno, SciFund Challenge Science as Cinema: Taking Broader Impacts to the Big Screen David Baker and Justin Smith, Oregon State University The Broader Impacts of University Based Economic Development: The Case of StartUP FIU Emily Gresham and Vivian Cueto, Florida International University The Power of Partnerships in Outreach and Education Amelia Bachleda, University of Washington
10:40–10:55 a.m.	Break
10:55-11:55 a.m.	SESSION 2
	Coordinated Panel The Power of Partnerships: The UWiscMadison Science Alliance Kevin Niemi, Karen Dunn, and Travis Tangen, University of Wisconsin- Madison
	Coordinated Panel Building Partnerships to Increase Chemical Science Education to Underrepresented Minorities Lloyd Munjanja, Danielle Watt, and Christopher Parsons, Emory University
	Combined Session Graduate Student Training and Development Defining Mentorship for Faculty and Students Liz Nysson, University of Wyoming Science Communication 101: A Museum-University Partnership for Early-Stage Graduate Students Rabiah Mayas, Mandy Bobrow, Heather Barnes, and Carla Thacker, Museum of Science and Industry, Chicago

	STEM Graduate Students as Partners: University of Missouri's Model
	for Training the Next Generation of BI Practitioners Jacqueline Gamboa Varela and Anahita Zare, University of Missouri
12:00 noon-12:55 p.m.	Lunch Sponsored by Michigan State University
1:00-1:45 p.m.	Keynote Speaker Dr. Suzi Iacono, Director, Office of Integrative Activities (OIA), National Science Foundation (NSF)
1:50-2:50 p.m.	SESSION 3
	Evaluation Session Part 1: Broader Impacts Evaluation 101 Douglas Spencer, Edu, Inc.; Julie Risien, Oregon State University; John Baker, University of Pennsylvania; and Monya Ruffin
	Coordinated Panel University-Community Partnerships to Advance Community Service and Workforce Development Melanie Roberts, Emerging Leaders in Science & Society, American Association for the Advancement of Science (AAAS) and Jennifer Davison, University of Washington
2:50-3:10 p.m.	Break
3:10-4:10 p.m.	SESSION 4
	Coordinated Panel The Role of Partnerships in Empowering High-Quality Outreach by Scientists: Recent and Ongoing Research Martin Storksdieck, Oregon State University; Cathlyn Stylinski, University of Maryland; John Besley, Pacific Science Center; and Eve Klein, Pacific Science Center
	Discussion Future Directions for Broader Impacts in the Engineering Directorate at the National Sciences Foundation Sheldon Jacobson, University of Illinois; Andrew Johnson, Texas A&M University; Jerome Hajjar, Northeastern University; Dawn Tilbury, University of Michigan; Erick Moreno-Centeno, Texas A&M University; and Si Qian Shen, University of Michigan
4:15–5:00 p.m.	National Policy Update and Discussion Toby Smith, Association of American Universities (AAU) and Geoff Hunt, American Society for Biochemistry and Molecular Biology (ASBMB)
5:00-7:00 p.m.	Break

7:00 p.m.	Dinner
	Sponsored by The Kavli Foundation

DAY TWO THURSDAY, APRIL 27	
7:30 a.m.	Continental Breakfast
8:30-10:15 a.m.	Establishing a Broader Impacts Resource Center
10:15-10:30	Break
10:30-11:55 a.m.	SESSION 5
	Coordinated Panel Engineering BI Partnerships: Using Engineering to Meet the Cross- Cutting Challenges of K-12 NGSS Katie Mills, University of Southern California; Sriram Sundararajan, Iowa State University; Ted Conway, Florida Institute of Technology; and Emily Ford, Columbia University
	Coordinated Panel NSF CAREER Program: A Gateway to Get Faculty "Hooked" on BI Kate Spohr, University of California Berkeley and Kaye Storm, Stanford University
	Evaluation Workshop Part 2: Broader Impacts Evaluation Planning and Practice Douglas Spencer, Edu, Inc.; Julie Risien, Oregon State University; and John Baker, University of Pennsylvania
12:00 noon-1:00 p.m.	Lunch Sponsored by Strengthening the Professoriate @ISU (SP@ISU)
1:00-2:30 p.m.	SESSION 6
	Workshop Broader Impacts for the 21st Century and Beyond Megan Heitmann, Iowa State University; Susan Renoe, University of Missouri; Julie Risien, Oregon State University; Diane Rover, Iowa State University; David Phipps, York University; and Sara Vassmer, University of Missouri
	Workshop Partnering to Inspire: Bringing Your Scientists into the Classroom Rachel Gesserman, Broad Institute of MIT and Harvard and Anique Oliver- Mason, Brandeis University
	Workshop Crossing Apparent Divides: Scientists' Engagement with Non-

	Traditional Public Audience Nalini Nadkarni, University of Utah; Dennis Schatz, Pacific Science Center; Becky Menlove, University of Utah; and Caitlin Weber, University of Utah
2:30-5:30 p.m.	Break
5:30-7:00 p.m.	Reception/Dinner
7:00-8:30 p.m.	Eclipse Panel Sponsored by the University of Missouri Dennis Schatz, Pacific Science Center; Angela Speck, University of Missouri; and Laura Peticolas, University of California Berkeley

DAY THREE FRIDAY, APRIL 28	1
7:30 a.m.	Continental Breakfast
8:30-9:00 a.m.	Poster Session
9:05-10:35 a.m.	SESSION 7
	Workshop
	Establishing a Peer-Reviewed Broader Impacts Journal
	Kathleen Hill, Matthew M. Johnson, and Annmarie R. Ward, Penn State
	University
	Workshop
	Supporting Public Engagement of Science Within Broader Impact
	Efforts
	Cathlyn Stylinski, University of Maryland and Martin Storksdieck, Oregon State University
	Workshop
	Partnering for Public Engagement: Models, Opportunities, and
	Challenges
	Anna Johnson, Pacific Science Center; Ann P. McMahon, University of
	Washington; Bothell Amanda Fisher, Oregon Museum of Science & Industry;
	Stephen Solovitz, Washington State University-Vancouver; and Chuck Lennox,
	Lennox Insites
10:45-11:30 a.m.	Facilitated Town Hall
12 noon	Adjourn/Lunch

SUMMIT PLANNING COMMITTEE

Julie Risien, Oregon State University, 2017 Chair

Megan Heitmann, Iowa State, Co-chair

Kevin Niemi, University of Wisconsin-Madison, Co-chair

Victoria Bonebrake, Oregon State University

Kristen Coakley, University of Pennsylvania

Lenora Crabtree, University of North Carolina Charlotte

Janice Dawe, University of Alaska

Carrie Ferraro, Rutgers University

Anna Johnson, Pacific Science Center

Matt Johnson, Penn State University

Bryan Rebar, University of Oregon

Janice McDonnell. Rutgers University

Susan Renoe, University of Missouri

Laurie Van Egeren, Michigan State University

Sara Vassmer, University of Missouri

Jory Weintraub, Duke University

Anahita Zare, University of Missouri

SUMMIT PARTICIPANTS

Over 85 different universities, institutes, centers, non-profit organizations and private companies were represented over the three-day summit. There were 134 total registrants, and 23% of the total Summit registration was comprised of EPSCoR state attendees. Fourteen EPSCoR states were represented, with a total of 31 EPSCoR registrants.

SUMMIT THEMES

Summit Strands

The 2017 BI Summit Planning Committee developed four summit strands for presenters to choose from, with the intention of providing well-rounded content for all NABI members. Strands included (1) Novel & Innovative BI Approaches & Activities, (2) Faculty and Student Development and Training for Broader Impacts, (3) Broader Impacts Infrastructure, Skills and Tools, and a catch-all category, (4) Other Topics. Highlighted sessions include a combined session focused on graduate student mentoring, training, and broader impacts experiences; a workshop on the success of CAREER training for early-career faculty, and steps towards the development of a broader impacts journal.

Special Session: Evaluation 101

Due to increased interest in previous years' summits, the Summit Planning committee organized a two-part evaluation workshop with the help of Julie Risien (Oregon State University), Douglas Spencer (Edu, Inc.), and John Baker (University of Pennsylvania). Part one focused on bridging the gap between the researcher and the evaluation professional. and concluded with an interactive session during the second part of the series to hone participants' skills.

Community Engagement & Town Halls

Two separate sessions were utilized to bring the voice of NABI to the forefront. On Thursday, a 1.5 hour facilitated session was led by Jamie Bell (CAISE) as a preliminary needs assessment from the NABI community moving forward into the NABI Broader Impacts Convening held May 30th-31st in Arlington, VA. The session focused on three questions: (1) What are your needs for resources, expertise, infrastructure? (2) What resources, infrastructure, expertise do you currently draw from? (3) What kinds of resources, expertise, infrastructure do you wish existed (or would like to know more about)?

On Friday, the Summit concluded with our annual Town Hall, where NABI members have an opportunity to voice their opinion on the direction of NABI and how to engage as a community moving forward.

EVALUATION

Demographics

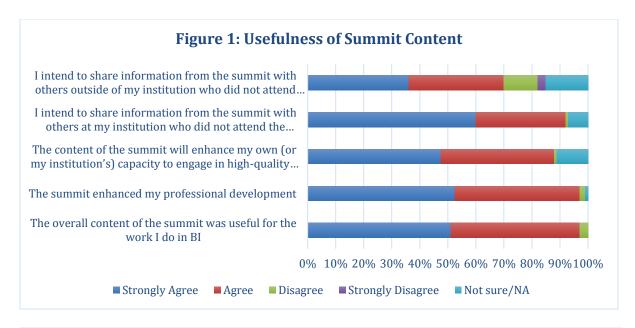

71.4% identified as female;
1.4% identified as Hispanic/Latino;
1.3% identified as Asian;
93.5% identified as White;
6.5% identified as Black or African American
71.8% considered themselves NABI members

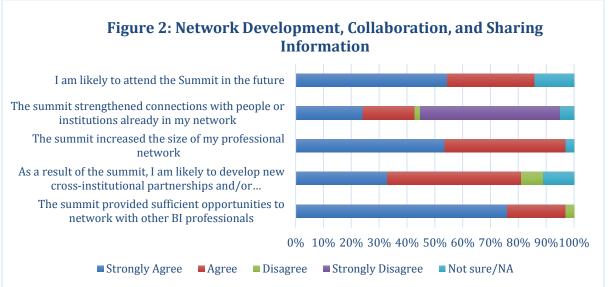

Evaluation Themes

Participants were invited by email to complete an online post-summit evaluation. Ninety-two participants completed the online evaluation (69% response rate). Entering into its fifth year, the Summit has maintained its dedication to providing a BI community of practice and increasing individual and institutional BI capacity. As in previous years, the recurring theme of fostering new connections and strengthening existing network connections was reinforced in this summit evaluation.

Key findings (presented in Figures 1 and 2) include:

- 97% of respondents reported the content was useful for their BI work
- 97% of respondents agreed or strongly agreed the summit enhanced their professional development and 94% agreed or strongly agreed the content will enhance their own (or their institution's) capacity to engage in high-quality BI activities or BI research
- Respondents reported network growth and strengthening of network connections: 97% reported the summit increased the size of their professional network and 84% reported the summit strengthened connections with those already in their network
- 85% of respondents would likely attend another Summit in the future.

Participants were pleased with the opportunity to network with professionals in the broader impacts community, and noted the diversity of roles participants held at their respective campuses. Attendees enjoyed keynotes from Dr. Suzi Iacono, Head of the NSF Office of Integrative Activites; established networking times; and the opportunity to talk about broader impacts and national science policy with Toby Smith (AAU) and Geoff Hunt (ASBMB).

A common theme found in responses is the challenge of creating new content for seasoned NABI members, but also meeting the needs of early-career BI professionals. Ideas for future sessions and NABI services emphasized the more practical aspects of creating broader impacts plans, including increased information about the day-to-day details of working with faculty, logistics and planning, a more applied approach to broader impacts evaluation, and creating more organized networking opportunities for participants.

Possibly reflecting this trend was found in feedback on the NABI Guiding Principles Document. The BI Guiding Principles and Questions document developed by NABI is being used and disseminated by conference participants in the following ways: distributed at grant-writing and professional development workshops, used as a resource when working on grant proposals, shared with faculty and researchers when assisting with proposal development, and distributed directly to faculty and administrators. The town hall concluded with a future call to action to produce more helpful guiding documents in the future.

Preconference Evaluation

Twenty-nine of thirty-six participants completed the online pre-conference evaluation, for an 81% response rate. 52% of attendees identified as broader impacts professionals, with the remainder of responses including research support professionals, grant writers, students and post-docs, among other roles. 96% of participants rated the pre-conference as a 'valuable use of their time,' and 90% would recommend a friend attend another pre-conference workshop. Open-ended responses highlighted the value of practical information provided by the facilitators; namely, the COSEE BI Wizard was regarded as one of the most valuable resources shared during the pre-conference. Future directions include emphasis on establishing a BI office in their home institution and less focus strictly on BI basics.

Social Media Presence

NABI live-tweeted the summit proceedings, and invited summit attendees to use the twitter hashtag: #NABI17 to consolidate their own summit-related tweets. Using Twitter analytics, during the three day conference, the @NA4BI account tweeted 45 times and averaged 2,100 impressions per day from April 25th-28th.

FUTURE DIRECTIONS

Moving forward, May 30-31st NABI will convene NSF officers, policy professionals, university administrators, BI & Extension professionals, and representatives from two-and four-year institutions including HBCUs, MSIs, and HSIs in Arlington, VA for a two-day meeting to discuss the future directions of broader impacts. The convening will include a keynote address by Dr. Joan Ferrini-Mundy, a panel discussion with NSF directorate and office leadership, and facilitated working groups focused on developing a needs assessment and consensus on how to move BI forward professionally and logistically.

The next Broader Impacts Summit will be hosted by Brown University and will take place at the Providence Biltmore in Providence, RI April 25-27, 2018.
